Projects

Dual-Framework End-to-End Test Suite | [GitHub](#)

Mar 2025 – Apr 2025

- Implemented **20+ identical end-to-end scenarios** in both **Playwright** and **Cypress** against a production-style e-commerce app using **TypeScript** and the **Page Object Model**; Playwright suite runs across Chromium, Firefox, and WebKit (**66 total executions**), with parallel **GitHub Actions** CI/CD and a data-driven framework comparison document

API Quality Gate Framework | [GitHub](#)

Feb 2025 – Mar 2025

- Engineered a production-grade **REST API test framework** with **53 test cases** covering functional correctness, error paths, and response time SLAs; used **Pydantic v2** schema validation, session-scoped fixtures, and **pytest-xdist** parallel execution, deployed with live **Allure reports** through a two-stage **GitHub Actions** pipeline

Work Experience

Michigan Technological University

Research Assistant

Jun 2025 – Present

Houghton, MI

- Collecting, cleaning, and analyzing data for an accounting research project using **Python** scripting

Ubisoft Entertainment

Software Engineer in Test

Mar 2020 – Mar 2021

Pune, India

Software company developing and maintaining large-scale consumer applications for 100M+ users across multiple platforms

- Led **smoke testing** for the desktop platform across 2 titles serving **40M+ users**, cutting execution time from **1 hour to 30 minutes** through automation
- Wrote automated test scripts with **parameterized fixtures** and session-scoped state for the team's new **Selenium/PyTest** framework, raising test coverage from **60% to 82%**
- Configured **Selenium** suites and smoke tests as quality gates in **BitBucket CI/CD** pipelines, reducing regression cycles from **10 to 8 days**
- Tested across desktop, console (**Xbox, PS4 & PS5 dev kits**), and mobile, running **performance profiling**, platform compliance checks, and peripheral hardware validation, reducing inter-platform defects by **35%**
- Owned the full **defect lifecycle** in **JIRA**: triage, root cause analysis, and closure across platform teams under **Agile/Scrum**

Expleo Group

QA Engineer

Oct 2019 – Feb 2020

Pune, India

Global quality engineering company providing testing services for enterprise mobile applications serving 100K+ users

- Designed and ran **300+ test cases** across **15+ iOS devices** via **Xcode** and **TestFlight**, reducing defect escape rate from **12% to 3%** for an app serving **100K+ users**
- Traced crash log stack traces in **Xcode** to root cause, delivering structured defect reports through **JIRA** and **TestRail** that cut bug resolution time by **25%**

Oasis Infobyte
